

30kW Photovoltaic Folding Container for Agricultural Irrigation

Overview

The PFIC30K46P30 is a compact all-in-one solar storage system integrating a 30kW power output, 46kWh energy storage capacity, and 30kWp high-efficiency foldable PV. Solar shipping container powers irrigation and tools in off-grid farms. Ideal for remote agriculture needing clean. The container is equipped with foldable high-efficiency solar panels, holding 168-336 panels that deliver 50-168 kWp of power. It is the perfect alternative to unstable grid power and diesel generators, keeping operations running even in remote areas or where infrastructure is weak. This system is realized through the unique combination of innovative and advanced container. Kindly Reminder □ The Above System Configuration For Initial Designing, The System Configuration Are Subject to Changing Depends on Your Final Installation Conditions and Requirements. Unlike standard solar panel containers, LZY's mobile unit features a retractable solar panel unit for quick installation.
