

Algeria-specific solar inverter brand

Overview

Ginlong (Solis) (Stock code: 300763. Z), a global pioneer in PV inverter technology, is making a significant impact on Africa's renewable energy landscape. Driven by the mission “developing. Algeria's push toward 15,000 MW of renewable energy by 2035 creates unprecedented demand for energy storage inverters. Deye inverters provide seamless backup power for homes during grid outages, automatically switching to solar or battery. Power inverters are a valuable resource in Algeria, and because the country uses the same electrical system as the rest of Africa, we have a wide range of products that will function properly within those parameters. These include solar components (solar panels, inverters, batteries), off-grid and grid-tie solar systems for commercial, industrial and residential applications, battery energy storage systems, energy efficient LED.
