

Automatic chipping of photovoltaic panels

Overview

Ecoppia is the pioneer and market leader in connected, AI, data-driven robotic solar panel cleaning solutions. Our fully autonomous robots operate nightly across the globe, providing efficient, safe and cost-effective cleaning of solar modules, utilizing advanced-patented technology. The common narrative suggests that once solar is installed on your home or business, you don't have to worry about upkeep for the next 25 years. LOTUS-A4000 is the Professional, smart AS01 series photovoltaic cleaning system, which is designed, researched and developed. With the potential to improve energy output by 30% through effective dirt removal, these systems are essential for both commercial and residential applications. Heliotex cleans solar panels like no other company, offering state-of-the-art automatic systems that configure for your specific soiling environment and feature security.
