

Comparison of 50kW solar energy storage cabinet

Overview

Its built-in BMS and EMS provide intelligent control, allowing seamless integration with solar PV systems, grid power, and backup generators. The modular battery design facilitates easy maintenance, while the high-voltage architecture enhances charging and discharging efficiency. With support for 200% PV oversizing and a maximum 40A DC input current, the Hybrid ESS Cabinet ensures high. SUNSYS HES L is a modular outdoor energy storage system designed for both on-grid and off-grid applications. It is available in a variety of configurations, to provide the ideal system size for a range of project requirements. It includes battery cells, Battery Management System (BMS), photovoltaic inverters, fire protection Individual pricing for large scale projects and wholesale demands is available. What's included inside the integrated cabinet?

The integrated cabinet includes LFP batteries, 50kW PCS, EMS, fire protection, AC/DC distribution, air cooling.
