

Delivery time for high-pressure type outdoor telecom cabinet for community use

Overview

Our professional Sales staff and CAD-Engineering team are ready to collaborate on state-of-the-art designs, ensuring competitive pricing and guaranteed delivery. Note: Front and rear sets of rails allow select equipment to rack in both directions, potentially doubling the racking. When your network infrastructure demands reliable outdoor protection, American Products delivers weatherproof telecom enclosures engineered for performance and built to last. Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies. This Integrated Cabinet for Telecom Equipment is designed for outdoor telecom applications, incorporating power distribution units, thermal management (AC or fan), standard 19-inch mounting racks, battery trays, and remote monitoring modules. With IP55/IP65 protection, it ensures secure operation. With over 20 million enclosures deployed and more than 50 years of innovation, Charles is the communications industry's go-to source for enclosed solutions. Combining a consultative approach and engaged support, we guide you through protecting your critical network infrastructure. Designed to protect your equipment from rain, dust, and extreme temperatures, our waterproof and customizable solutions ensure reliability in any environment. Built from AlumiFlex®, a lightweight yet durable material, it provides steel-like strength to support the heaviest equipment.
