

Energy storage solar power station under construction in mumbai india

Overview

Tata Power has received approval from the Maharashtra Electricity Regulatory Commission (MERC) to install a 100 MW Battery Energy Storage System (BESS) in Mumbai. The project will be completed over the next two years. The system includes advanced 'black start' functionality. Photo by Anna Vasileva The project was cleared by. Tata Power Renewable Energy Limited (TPREL), a subsidiary of The Tata Power Company Limited and a prominent player in India's renewable energy sector, has entered into a Power Purchase Agreement (PPA) with Tata Power Mumbai Distribution for a contracted capacity of 80 MW Firm and Dispatchable. Tata Power will install a 100 MW battery energy storage system to facilitate peak load management in Mumbai's power network. It will implement the system across ten strategically located sites in Mumbai, centrally monitored and controlled from its power system control center.
