

Environmental sustainability castries

Overview

Here are some tips for a sustainable trip to Castries: Stay at eco-friendly accommodations that use renewable energy and reduce waste. Support local businesses and artisans to boost the local economy and preserve. Castries is now offering more sustainable tourism options. They work hard to protect. Below is a directory/list of NGOs, charities and non-profits working on protecting environment. In recent years, Castries has increasingly focused on sustainability and green initiatives to preserve its natural beauty and to promote an environmentally conscious community. Saint Lucia's National Adaptation Plan (NAP) has been defined as a ten (10)-year process (2018-2028), consisting of priority cross-sectoral and sectoral adaptation measures for eight key sectors/areas and a segment on the "limits to adaptation," complemented incrementally with Adaptation Strategies. Saint Lucia is known for its exceptional biodiversity, with over 1,500 plant species, many endemic to the island. More about us Our work began in.
