

Finland multifunctional solar container outdoor power manufacturer

Overview

Solarfold allows you to generate electricity where it's needed, and where it pays to do so. The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. With Watula Greentech and our partners we help you to find new innovative solutions within the energy sector by modular and scalable products. This system is realized through the unique combination of innovative and advanced container. Whether it is manufacturing solar panels locally, designing and building production lines, or sales, design, and construction of comprehensive turnkey solar solutions, they all belong to the expertise area of Solar Finland. The scope of our operations, seamless co-operation, and communication. Sun Energia has created a 3D model of over 4. 2 million Finnish roofs and calculated the solar radiation each roof receives throughout the year, considering various factors like orientation and shading. The lightweight, ecologically-friendly aluminium rail system guarantees a mobile solution with rapid availability.
