

Homemade solar powered flower

Overview

This guide demonstrates how to create a beautiful DIY solar water fountain planter, combining the beauty of flowers with the soothing sounds of water. The project is simple, budget-friendly, and can be done in under fifteen minutes using stacked flower pots. But instead of having the flower spin in the wind, why not have the sun do it?

After a little bit of experimenting with some scrap wood and some sheet aluminum that I had laying around, the Solar Flower was born. The flower design is based on the top of. Tired of dull corners in your yard once the sun sets?

Solar lights are the easiest, most affordable way to breathe life into your outdoor space, no wiring, no fuss, and definitely no electric bill surprises. A little bonus. Are you looking for a solar water fountain but don't have a lot of money to spend?

In this article, we're going to show you how to make one at home with items that are easy and affordable to get. This post was transcribed by a member of the Hometalk editorial team from the original.
