

Household power sine wave inverter

Overview

A pure sine wave inverter is a device that converts direct current (DC) such as what's produced by a solar system or RV batteries, to usable alternating current (AC) that most appliances use. A sine inverter takes the DC output of your solar array, converts it to AC, and does so in a way which replicates as closely as possible the pure sine wave of grid power alternating current. HouseAndBeyond is reader-supported. We may earn a commission through products purchased using links on this page. Learn more about our process here [Planning long camping, RV, or boat trip?](#)

Or working at a. The Nature Power 1,000-Watt Pure Sine Wave Inverters convert 12V DC power into 120V AC power and provides power similar to the power supplied from your home electrical outlets. The Pure Sine Wave inverter, as opposed to the Modified Sine wave inverter, is great for running high sensitive equipment. Harbor Freight buys their top quality tools from the same factories that supply our competitors. Ideal for vehicles, homes, and portable.
