

Italy's largest energy storage project

Overview

Trina Storage has signed its first large-scale battery energy storage project in Italy with Aer Soléir, an Irish company based in Dublin. This project, located in the Turin area, won the Italian Capacity Market auction for deliveries scheduled for 2027. “The strategically important project will have a power output of 250 MW and a capacity of 1 GWh and will be located in Rondissone. With its 1 GWh, the project is destined to become one of the largest battery storage systems in Italy and Europe,” wrote Trinasolar's energy storage business unit. This landmark agreement heralds REDEN's entry into large-scale storage in Italy, supporting national 2030 targets while. Greenvolt Group, through its subsidiary Greenvolt Power, has emerged among the winners in Italy's 'largest' battery energy storage system (BESS) auction, securing a 15-year indexed tariff for a 499MWh project. Subsidiary Trina Storage has commissioned the 9.
