

Mauritius large solar energy storage cabinet plant

Overview

The Henrietta project is a cornerstone of the nation's energy transition, combining a 60 MWp solar photovoltaic (PV) array with a substantial 240 MWh battery energy storage system (BESS). Qair International has secured financing for the landmark 60 MWp Henrietta solar project in Mauritius, a move that establishes the country's largest solar and battery storage initiative. This project builds upon Qair's long-standing presence in the Indian. With 60% of Mauritius' solar farms concentrated near Port Louis, storage containers enable: The market has shifted toward modular designs like EK SOLAR's plug-and-play containers, which reduced installation time from 14 days to 72 hours. Key advancements include: Did You Know?

Mauritian businesses. On July 14, 2025, Mr. Mahen Kundasamy, CEO of the Economic Development Board (EDB) of Mauritius, held a follow-up meeting with Mr. Olivier Gaering, Regional Director Indian Ocean of Qair Mauritius. As a leading independent power producer specialising in renewable energy, Qair has been a key player. French independent renewable energy producer Qair has closed a loan agreement to back the construction of 60 MW of hybrid solar-storage parks in Mauritius. The funds will be allocated for the implementation of four projects that Qair was awarded in 2023 and will run. The four projects in the Stor'Sun initiative that Qair won in 2024 are now funded, and will aim to provide a consistent 12-hour energy output.
