

Outdoor solar power hub with exactly 5 kWh of electricity

Overview

The 5kw off grid solar system consists of 5kw solar panels, 5kw off grid solar inverter, 10kWh lithium batteries, and a solar bracket mounted on the roof. The system can generate between 600kwh and 800kwh of electricity per month, which is enough for a family of 4 to 6 people. A Power Hub connects up to 3 EcoFlow batteries for 2kWh to 15kWh energy storage. **Images have components not included with each Power Kit package. Other available packages include the 2kWh Package, 4kWh Power. The EcoFlow 5kWh Power Kit is a comprehensive, all-in-one energy solution designed for off-grid homes, RVs, vans, and mobile living. Featuring a 5120Wh LFP battery, a high-efficiency MPPT solar charge controller, and an inverter-charger, this system delivers reliable, scalable, and sustainable. We've designed a new range of rigid and flexible solar panels giving your van a total solar input of up to 4800W* spread across three 1600W ports. Use your alternator to recharge with 1000W.
