

# Outdoor telecom enclosure high-pressure type for environmental protection projects

## Overview

Designed to meet high protection standards and environmental demands, they ensure reliable performance for equipment deployed in the field — from remote base stations to multi-operator telecom sites. Available in IP55, IP65, IP66 and NEMA 4/4X configurations. Protect your equipment with AZE's reliable, shock-resistant, and UV-proof solutions Integrated. When your network infrastructure demands reliable outdoor protection, American Products delivers weatherproof telecom enclosures engineered for performance and built to last. Explore. These telecommunications devices are typically quite sensitive and need outdoor telecommunications enclosures to protect them. These outdoor enclosures are made from rugged materials such as polycarbonate or stainless steel that safeguard them from environmental hazards. With proven expertise in system integration, Westell also manages the details for design assistance, planning, thermal management.
