

Portable mobile power supply series

Overview

It is characterized by safety and support for fast charging and is suitable for multiple devices. Multiple ports and equipped with AC socket to power large electrical appliances. The models have capacities ranging from 30,000 to 75,000 mAh, the largest can also power bigger devices via an AC socket. Compact, rechargeable battery that delivers electricity wherever you need. Produces no fumes or noise, unlike traditional gas generators. Recharge via AC, car, or solar panels. Energy is stored in a LiFePO₄/LFP battery. Ideal for camping, tailgating, emergencies or everyday outdoor activities, portable power stations provide a safe and convenient energy solution so you can charge and run essential. The PMT Power Bank series represents the industry's first Specific Outdoor Power Bank, using lithium iron phosphate automotive-grade batteries. Shop today! The ClimatePartner certified product label confirms that a product meets the requirements for the five steps in climate action including calculating carbon footprints, setting reduction targets, implementing reductions, financing climate projects and communicating transparently to continuously.
