

Solar PV Panel Rooftop Costs

Overview

Project Sunroof is a solar calculator from Google that helps you map your roof's solar savings potential. Learn more, get an estimate and connect with providers. Solar Costs Have Reached Historic Lows: Average residential solar costs have dropped to \$3.30 per watt in 2025, representing a 60% decrease from 2010 levels. Combined with the 30% federal tax credit extended through 2032, most homeowners can achieve payback periods of 6-12 years with 25+. Residential rooftop PV solar panels cost per watt installed has been dropping and newer technology is enabling a far greater efficiency – that's more solar energy converted into electricity for home usage – for less money. NLR's PV cost benchmarking work uses a bottom-up. Solar roof panels are one of the most attractive options for homeowners in 2025, combining aesthetics with clean energy generation.
