

Solar panel automatic sprinkler system manufacturer

Overview

Our irrigation controllers use solar power to detect the weather and alter watering patterns according to the conditions and the season How does it work?

Using a water butt or reservoir to catch rainfall is a great way to reduce water waste and minimise your water bill, too. OtO is a self-install sprinkler that sets up in minutes with just a hose and Wi-Fi—no professionals or trenches required. OtO's precision nozzle lets you create custom zones for your unique-shaped yard, all easily controlled in the OtO app. Connect the tubes to. DIG's ECO1™ line of solar (ambient light) powered irrigation controllers is available with an anti-siphon valve, inline valve, or actuator to retrofit brass or plastic manual anti-siphon valves. The controllers' power is derived via a patented, time-tested internal photovoltaic module and. Shop products from small business brands sold in Amazon's store. Made with chemicals safer for human.
