

Solar power generation fraud incident

Overview

Last year, the Connecticut Office of the Attorney General filed a lawsuit against Sunrun, Bright Planet, and other solar companies alleging "deceptive, unfair and otherwise unlawful sales of solar panel systems, including locking consumers into long-term contracts without. Last year, the Connecticut Office of the Attorney General filed a lawsuit against Sunrun, Bright Planet, and other solar companies alleging "deceptive, unfair and otherwise unlawful sales of solar panel systems, including locking consumers into long-term contracts without. The Federal Trade Commission enforces the laws banning unfair methods of competition and unfair or deceptive business practices, which are designed to ensure people don't get cheated, tricked, or coerced in the marketplace. A particular area of focus is ensuring that we're responding to market. North Texans report fraud, forgery and coercion at heart of residential solar energy industry. Claims submitted to the Office of the Attorney General warn of homeowners being told they were signing approval for credit checks. They were really signing off on tens of thousands of dollars in loans. State officials are warning homeowners to be on their guard as complaints mount over shady sales tactics in the solar industry, according to a GHB News investigation. However, your energy goals are still within reach. The consumer was a victim of Pink Energy, a. In the two decades since high school, he'd lost one repair shop after another, filed for personal bankruptcy, and watched a lender foreclose on the small house in a California refinery town where he'd lived with his wife and two young kids. A Los Angeles judge approved an \$845 million judgment against a rental company.
