

Tesla rooftop photovoltaic panel price

Overview

Tesla Solar Roof systems typically range from \$50,000 to \$160,000, with most costing between \$60,000 and \$120,000, though you may pay less if you qualify for local incentives. There are more than a few tradeoffs you have to make if you go for a solar roof instead of a traditional solar panel system, not the least of which is the up-front cost and, as a consequence, reduced long-term savings. I'll analyze the costs of a solar roof and how a solar roof compares to solar. Install Solar Roof and power your home with a fully integrated solar and energy storage system. Schedule a virtual consultation with a Tesla Advisor to learn more. Tesla has been offering competitive pricing in the solar energy market, but the exact cost of a Tesla Solar system depends on several factors: System Size: The size of your home and energy usage will determine how many solar panels you'll need. But be warned: it does come at a cost.
