

Tonga New Energy Storage Company

Overview

'Ohonua, 'Eua Tonga (02nd March 2023) — Tonga Power Limited (TPL) has commissioned a new solar and battery energy storage system in Eua, Tonga, with the financial support of the Government of Australia and the Asian Development Bank. The ADB has approved a grant of US\$12. 2 million for the Tonga Renewable Energy Project, through the much larger Pacific Renewable Energy Inves project, of 5 MW/10 MW. The system includes a 350kW solar plant and a 1003kW/1856kWh. French renewable power producer Akuo Energy said Friday it has secured a contract to build in Tonga an energy storage system with a capacity of 23. The company will be in charge of the engineering, procurement and construction (EPC) of the Tonga 2 facility under a contract signed in. The PAWA PNG project, a joint venture with Dirio Gas & Power and the PNG government, will provide 283MW of less expensive and more reliable electricity supply with significantly lower emissions, as it primarily replaces aging, inefficient diesel-based generation with modern, high efficiency liquid.
