

What are the solar sites in Iraq

Overview

The meeting granted initial approval for two 20-megawatt solar power stations in Al-Rusafa and Al-Karkh, while the Ministry of Electricity will install two 3-megawatt solar units at the Army Canal site as part of Iraq's broader renewable energy drive. It is a part of "Global Photovoltaic Power Potential" Study, which provides an aggregated and harmonized view on solar resource and PV power potential from the perspective of countries and regions. Download country factsheets, tabular data and the Study Solar resource (GHI, DNI, DIF, GTI, OPTA), PV. Iraq is advancing several solar power projects as part of a plan to meet its electricity needs. This aerial photo shows panels at a newly opened industrial-scale solar power plant in Karbala, Iraq, on September 17, 2025 [Anmar Khalil/AP] Iraq is set to open its first industrial-scale solar plant in. Iraq's Prime Minister Mohammed S. Al-Sudani chaired a special meeting of the National Renewable Energy Team on Monday to review progress on the country's renewable energy strategy. The country features vast arid plains, deserts, and a central river valley formed by the Tigris and Euphrates rivers.
