

## Zinc-plated photovoltaic bracket

### Overview

Recognized for its high load-bearing capacity, exceptional stability, and installation flexibility, this product is an ideal choice for large-scale solar power plants, commercial & industrial distributed PV projects, and residential PV applications. Are you looking for reliable and durable Zinc plated PV mounting brackets?

At Tangshan Huizhe Supply Chain Co., we understand that your main concerns include corrosion resistance, ease of installation, and long-term durability. Our Huizhe Zinc plated PV mounting brackets deliver exceptional. Blue zinc-plated Metal Steel Connector Photovoltaic Bracket Structure We are professional suppliers on high quality fasteners,insisted on the principle of high quality and the best service. Our products and service have extended to Europe, East Asia, North America, middle east and all over the. The solar double-hole PV clamp is a critical connecting component used in PV mounting systems to secure photovoltaic modules. 3mm thick pre-coated magnesium-aluminum-zinc coated steel coil, "Crystal Diamond," which can be used for solar bracket forming. By replacing the post-forming spraying process with a pre-coating baking paint process, we reduce the time and costs for. □High-Quality Material□The solar panel mount is made of high-strength aluminum alloy AL6005-T5. □Intelligent Design□The solar panel mounting brackets ensures a secure and easy grip during the module. Hyper Tough 2 inch.
